

The 1st Nordic Advanced Temporal Bone Course

September 30 – October 2, 2026

P. Olander Medica AB, Education Center – Sparsörsvägen 1, 513 50 Sparsör

We are proud to present the first joint Nordic temporal bone course, bringing together leading experts from Denmark, Finland, Norway, and Sweden. This three-day course is designed to offer hands-on surgical training tailored to your individual learning needs.

COURSE INFORMATION

Whether you are looking to refine your technique or expand your repertoire, this course provides a unique opportunity to practice a wide range of procedures on a complete specimen, including:

- Tympanoplasty
- Cholesteatoma surgery
- Cochlear implantation
- Bone conduction implants
- Radical cavity reconstruction
- Stapes surgery
- Lateral skull base surgery
- Lateral temporal bone resection

Each day will combine practical dissection sessions of whole head specimens with concise lectures and instructional demonstrations. Every instructor will deliver a focused 30-minute lecture, complemented by short dissection briefings at the start of each session.

Course Language: English

Target Audience: ENT surgeons from the Nordic countries. Initially, three spots are reserved per country. Additional participants may be considered based on demand.

Accommodation: Hotel recommendations and booking information will be provided shortly.

PO Medica, just outside Borås, offers a modern and fully equipped wet lab alongside a nearby lecture hall. Sparsör is easily accessible by car, bus, or train. For those flying in, Landvetter Airport is approximately 45 minutes away by car or bus.

PO MEDICA
